

SGN Commercial Services

Our highly experienced team offers a wide-range of specialist and gas-related professional services in the UK.

With around 4,000 skilled and committed people employed within the group we invest around £450m a year in our network.

A leader in gas network operations and asset management in the UK

Part of the SGN Group

We have over 15 years' experience providing clients with comprehensive operations and management services for pipeline systems and assets.

We pride ourselves on building strong relationships, offering new and well-established clients unrivalled technical skills and experience with deep sector-knowledge.

We always work together, talk honestly and treat people with respect.

Efficiency, innovation and continuous improvement will help us deliver excellence and achieve commercial success.

Driving performance

Putting people at the heart

Looking after customers

By listening to our customers, understanding their needs and keeping our promises we can deliver an excellent service that people trust.

We take responsibility for our own safety and the safety of those around us.

Safety first

Our values

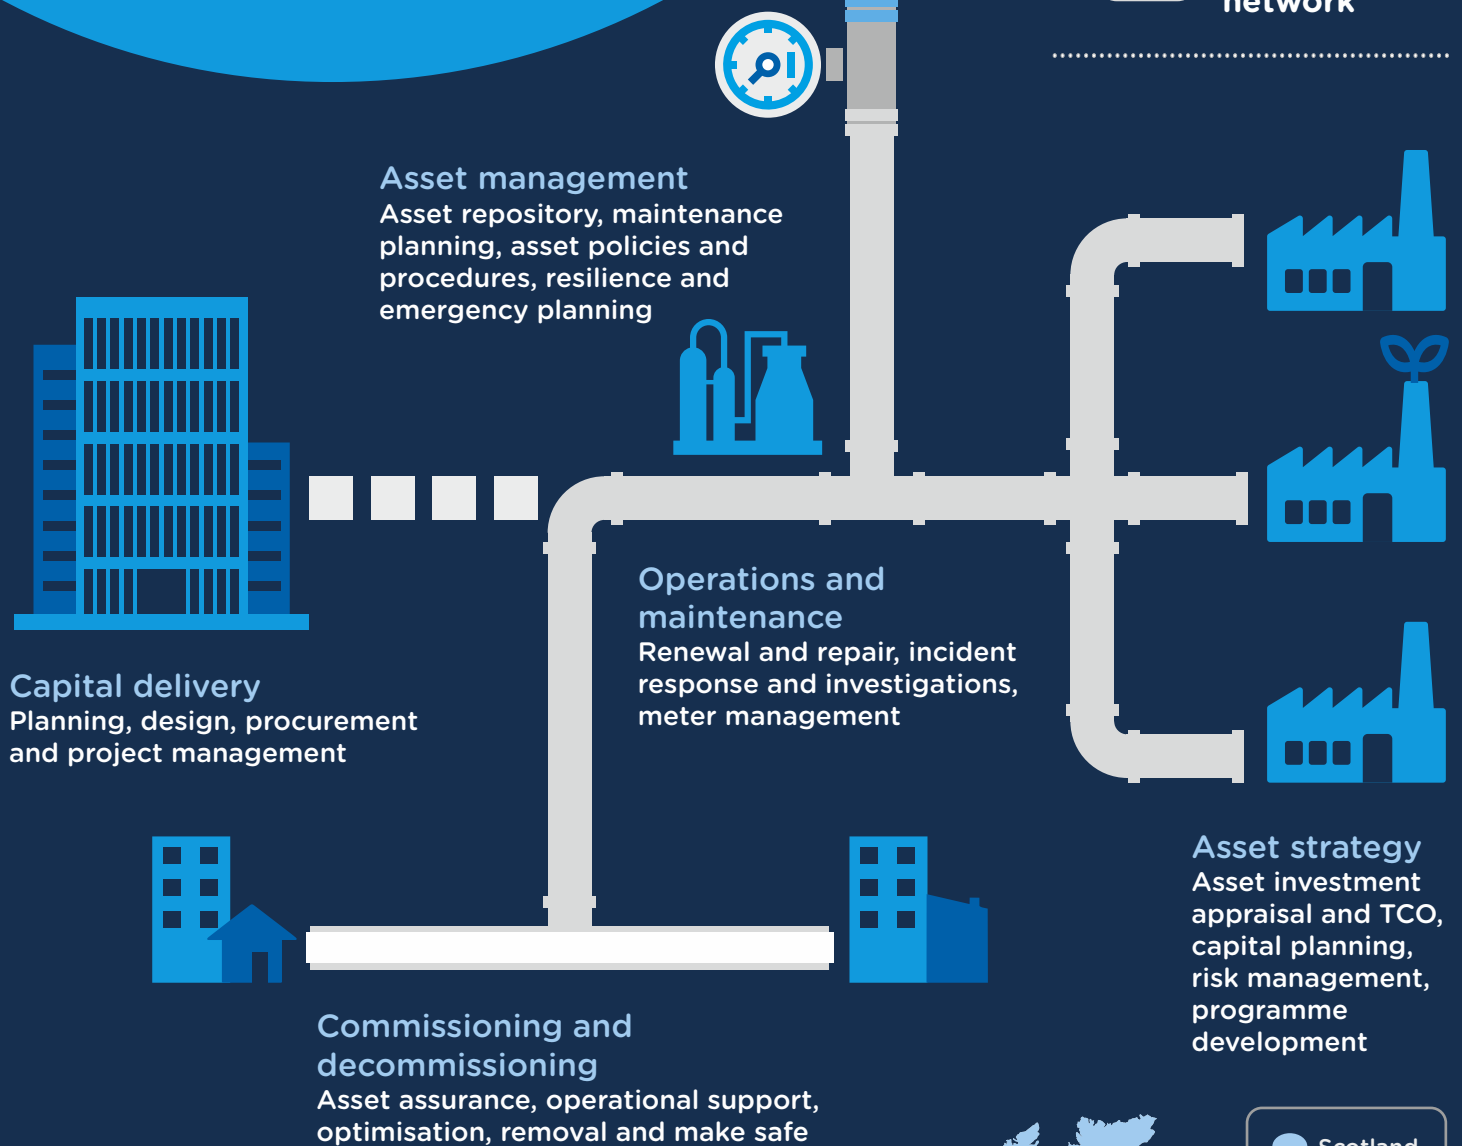

Sustaining our world

We maximise our positive effect on local communities and minimise our impact on the world.

Third party gas network services

Leveraging our core strength as a gas distribution network, we can provide you with a bespoke or comprehensive full asset lifecycle offering:
